-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM
 THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed 4/14/2004 is acknowledged by the examiner.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1, 2 and 4 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Pat. No. 6,260,819 (Ovsepyan) in view of U.S. Pat. No. 5,326,075 (Goff). Ovsepyan discloses a handle for actuating a valve comprising a fastening head (lower portion of element 16 in figure 2), a spindle (40), an actuating arm (the gripping portions of element 16 in figure 2), a valve housing (12), means for preventing the actuation of the handle (52), a fastening means (46), and wherein the valve is a ball valve (36) but lacks a sealing plate for sealing the fastening means. Goff teaches an actuating handle for a valve comprising an actuating arm (14), a fastening means (17), and a sealing plate (20) made of plastic (col. 4, lines 28-33). It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the handle of the valve actuator having a fastening means of Ovsepyan by covering the fastening means with a plastic sealing plate as taught by Goff in order to improve the aesthetics of the handle and to protect the fastening means from external elements.

4. Claims 1, 4, and 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Pat. No. 6,260,819 (Ovsepyan) in view of U.S. Pat. No. 3,397,863 (Bell). Ovsepyan discloses a

handle for actuating a valve comprising a fastening head (lower portion of element 16 in figure 2), a spindle (40), an actuating arm (the gripping portions of element 16 in figure 2), a valve housing (12), means for preventing the actuation of the handle (52), a fastening means (46), and wherein the valve is a ball valve (36) but lacks a sealing plate for sealing the fastening means.

Bell teaches an actuating handle for a valve comprising an actuating handle (23), a fastening means (36), and a sealing plate (37) having catch projections (38). It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the handle of the valve actuator having a fastening means of Ovsepyan by covering the fastening means with sealing plate having catch projections as taught by Bell in order to improve the aesthetics of the handle and to secure the plate more effectively to the handle.

Allowable Subject Matter

5. Claims 3, 5, and 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

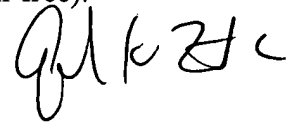

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John K. Fristoe Jr. whose telephone number is (571) 272-4926.
